

HLTSS00083 Infection Prevention and Control Skill Set

New Futures Training provides nationally-accredited vocational training and employment support for people from migrant, refugee and asylum seeker backgrounds.

As a **not-for-profit**, community organisation we are committed to creating opportunities for diverse communities. Our courses are industry focused, language supported and affordable. Our trainers come from diverse backgrounds with extensive industry experience.

Course overview

This skill set provides individuals working in a range of industry and work setting contexts with the necessary skills and knowledge to apply basic infection prevention and control principles including implementing standard and transmission-based precautions and responding to risks.

Delivery mode

- Classroom based
- Blended

Duration

- Approximately 3-4 weeks (including holidays)

Placement

You will need to complete a minimum 40 hours of placement. Practical placement is organised by New Futures Training.

Why study with us?

New Futures Training is committed to delivering flexible training programs that cater to the cultural, employment, language and personal needs of our students.

Who is this training for?

This skill set is for individuals in a range of work settings who are required to apply basic infection prevention and control principles and practices. It can provide career pathways for individuals who require the skills and knowledge to decrease the risk of infection.

We want to see you succeed!

Here are some of the many services available to you:

Child care

Leave your child in our care while you study. All our students have access to New Futures Early Learning Centres on campus at discounted rates.

Payment Plans

All our courses are government funded for eligible persons. We also offer 'Payment Plans' to assist you with course fees.

Language Support

Language support is for students with English as a second language and focuses on the development of the student's ability to communicate effectively in English.

Professional Development

Our students enjoy access to short courses, professional workshops and training at subsidised rates.

Units

1 Core unit

HLTINF006

Apply basic principles and practices of infection prevention and control

Entry requirements

The minimum age requirement is 17 years unless an exemption has been provided.

Fees
